DETAILED ACTION

Examiner's Amendment

Claims 42-46 have been canceled as directed to a non-elected invention.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: the prior art reference has failed to disclose or suggest a system for creating and dilating an opening in an interspinous ligament, the system comprising a series of dilators, each dilator including an elongated body having a proximal end and a distal end; a handle portion connected with the proximal end for manipulating the elongate body and a tapered curved tip at the distal end adapted for being urged into the interspinous ligament, the tapered curved tip having a rigid shape and increasing from a first diameter to a second diameter; and wherein the first diameter of the tapered curved tip for a first dilator is sized such that the first dilator is adapted to create the opening in the interspinous ligament; and wherein the first diameter of the tapered curved tip for a subsequent dilator is substantially the same as the second diameter of the tapered curved tip of a preceding dilator.

Claims 54-63 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the
